Being part of an International Circuit Salon gives us the opportunity to first-hand witness the standard of photography around the world. Over the past couple of years photography has grown at the same fast pace we see in technology. The quality of photos and the creativity is at such a high standard that selecting winners from a circuit like this is not easy.

The judging was done on the first weekend of December, and, although we were separated by thousands of kilometres, it felt like we were part of the same team as we were sharing our experiences via modern technologies such as WhatsApp and Facebook throughout the weekend. We were truly part of our own small digital community!

Looking at the results of the three participating salons in this circuit from across the globe, it is interesting and confirming to see how similar high-quality photos “spoke” to us all.

Organising a circuit salon across three different continents is on its own a daunting task. I would like to thank Norbert Heil and his team from Germany for the excellent and efficient manner in which this was organised. Having the final results out within hours rather than days after the judging was done is an amazing achievement.

I also would like to thank Agatha Bunanta and her team from Indonesia for their part in ensuring the smooth operation of this circuit salon. Also thank you for those beautiful certificates you designed for the judges – it gave a special touch to this event.

Being part of 2018 Cross Continental Circuit is definitely something we are very proud of and we are already looking forward to the next one.
